## WEEK 7

### Year 10 SET Plan Interviews

Year 10 students are currently undertaking their SET Plan interviews to prepare for Year 11 2026. Students will have received communication from the teacher with whom their interview is scheduled. If you would like to take part in the interview with your son/daughter, please contact me.

### Year 11 Exam Block

Year 11 students will have an exam block from Tuesday 16 September until Thursday 18 September. Students are only expected to attend school on these days if they have an exam. There are also assignments due this week, so they can be working on these at home. View the schedule here: [Year 11 Exam Block](#). Students are expected to be punctual, prepared, and well-presented at all exam sessions.

### Year 12 Mock Exam Block

In Week 9 and 10 this term, Year 12 students will undertake a mock exam for each General subject they study. The timetable has been published previously to parents and students and can be viewed here – [2025 Year 12 Mock Exam Schedule](#). Mock exams prepare students for the external assessment in Term 4 as students are able to familiarise themselves with the test instrument, procedures and subject content. Early in Term 4, students will receive targeted feedback from their teachers and strategies to action to improve their knowledge retrieval and application.

Students are expected to be punctual, prepared, and well-presented at all mock exam sessions.

Students undertaking a mix of General and Applied subjects will receive communication from Mr. Andrew Stein (Year 12 Coordinator) regarding expected attendance. Students whose study course includes only Applied subjects are expected to attend school every day.

Kind regards,

**Ms Rachele Belz**

**Assistant Principal: Curriculum**
